Dear Serious Weight Watcher,

You're just minutes away from learning about a new revolutionary way to lose weight fast and safely. And it doesn't involve any silly ineffective diet programme, or any dangerous exercise routine and definitely not any painful surgery like a gastric band or anything else of that nature.

This is completely new and if the weight loss industry knew what we are going to reveal to you today in this letter they would do their utmost to shut us down. They simply don't want you to know the truth about losing weight the easy, fast and natural way. **But we're going to tell you...**

Before we do...

Have you ever looked at a film star, pop star, sports star or TV celebrity and wished you had a body like theirs? Don't male and female models with bodies to die for... just make you sick? And have you ever been to a beach and looked at all the fit people enjoying themselves on the sand while you sit in the shade, too ashamed to take off your T-shirt or put on a pair of shorts?

When you look at all those happy people with their slim, trim, and fit hard bodies, doesn't it make you want to hide away in a locked room somewhere out of sight? Do those "perfect" heavenly bodies make you experience feelings of envy and jealousy... perhaps even frustration and self-loathing?

Well don't worry. You're certainly not alone.

There's no doubt that being overweight makes you more self-conscious about your appearance and does very little for your self-esteem. And in these

circumstances your emotions can become quite unstable, which leads to... yes more eating... we know it as comfort eating.

And so it becomes a vicious circle of eating and depression.

Now, given the choice most people would rather not be overweight, but to lose that excess weight that has gradually been gained over many years is easier said than done... right?

No! That's absolutely wrong! That's what the weight loss industry wants you to believe.

Why The Weight Loss Industry Is Not Telling You The Truth

Weight loss companies promoting their latest diet plan or exercise routine will have you believe that they have the answers to losing weight. Well of course they would wouldn't they? They'll tell you anything you want to hear just as long as you sign up for their 12 week slimming course, and they'll promise you all kinds of ridiculous results. While others just simply want to sell you their expensive and ineffective exercise equipment.

The online auctions and charity shops are full of useless exercise equipment.

The truth is, it is easy to lose weight but you just need to know how.

Don't you think that all those super fit celebrities have their own closely guarded secrets to staying slim? You better believe it! Are they going to share their secrets with you? Absolutely no way! Oh, but they will want you to buy their latest aerobics video... which might be quite entertaining **but that's not how they stay slim.**

Do you think they could really be bothered with all that dieting and exercise malarkey? It's too boring... and why would they want to when they have the money to pay for a much easier way?

It's about time the truth was out... don't you think?

Well while many of us are starving ourselves, or sweating blood and running our bodies into the ground or even going under the knife just to get back in shape... **you should know that there is another way.**

After almost 2 years of research into human anatomy, medical science, slimming products, diets and exercise plans we've uncovered a real simple and 100% natural alternative to shedding those unwanted pounds.

With this new, organic compound you can now lose weight easily and effortlessly.

Now we can't say for sure whether this product is exactly the type of weight loss formula that the celebrities use, but it's our guess that it's probably something very similar.

How It Works...

You see during our research we discovered exactly how the body loses weight... **naturally.** And it has nothing to do with dieting. But it has everything to do with **increasing the body's metabolism.** The reason why diets don't work is because if you eat less food, your metabolism actually slows down. So this makes it much harder to lose weight.

If you speed up the body's metabolism, you can even eat more... and still lose weight.

You see your metabolism is based on a series of chemical reactions. And the higher your metabolism rate is the more energy the body requires to undertake routine tasks, and therefore the more calories it will burn up.

Everyone knows at least someone who has a naturally high metabolism. You know... the person who can eat and eat and yet never puts on a single ounce of fat. For the rest of us we have only to look at a cream cake and we can feel the weight piling on almost instantly. It's just not fair!

Well it's now time to get even. But first you need to get mad.

Why?

Because you've been lied to.

That's right! For years now the weight loss industry has been lying about their slimming products and diet plans. And the reason is simple. It's all because they want to fleece you of your hard-earned cash. They know you are vulnerable so they make all kinds of false promises in order to pull you in and convince you that you must to buy their products.

Now think about it! If they offered you a real long-lasting solution to losing weight and keeping it off, they just wouldn't be able to sell very much. They could only sell to their customers one time and that's not where the money is. They make their money by selling long courses of slimming aids and endless books and videos.

The weight loss industry is massive and it's worth billions. Just type the keywords "weight loss" into the Google search engine and it will throw up over 50 million results!

Do you think they'd be happy about losing any of their market share to some new "secret" remedy? Do you think they might try to shut a business down if it represented a real threat to their massive money-making empires? **Oh yes!**

The weight loss industry is very powerful and in many cases it controls the media in terms of information output. Their ads generally feature glamorous, young slim ladies or beefy fit young guys sporting washboard stomachs, and claim their products will make you look like this.

Well it's just not true! You don't need their costly courses and you don't need their carefully calculated diet plans. It's all complete and utter rubbish! It's only designed to get you to part with your cash. So don't fall for all the hype.

Introducing A Safe, Natural Weight Loss Product Made From Fat Melting Organic Compounds

When we realised that we had discovered the answer to losing weight naturally we were eager to get our formula tested.

At first we tried it ourselves and then we offered it free to numerous volunteers. The results were absolutely amazing... so we decided to call it the ***"Amazing Body Pro"***.

Now because the results were so fast and the system so simple to follow, we are 100% sure that it's going to work for you. In fact we're more than sure.

We're so sure that we're offering the *"Amazing Body Pro"* system completely **risk free**.

More about that in just a minute...

Remember! Increasing your metabolism is about your body's chemistry, so it's obvious then that a "tablet" containing the necessary chemicals is going to be key to getting results. But don't worry... these essential elements are derived from **natural resources** like plant extracts so they are completely safe and have no harmful side effects whatsoever.

The *"Amazing Body Pro"* is a course of tablets designed to boost your metabolism, so only the excess body fat will melt away effortlessly. It's what every serious slimmer has been waiting for. The *"Amazing Body Pro"* system has been researched, developed and designed for fast and easy weight loss.

Guaranteed!

Now, we're not a large multi-million pound health and fitness company and neither are we a major player in the weight loss industry. We are a small development and distribution company based in Hampshire, UK. Our aim is to bring you **the truth about weight loss products and expose the industry for what it really is**.

But why should you trust us? And why should you try our unique product? Well you don't have to... that is if you don't want to lose weight the real fast, safe and easy way.

If you would much prefer to cut down drastically on your food intake then that's entirely up to you. But remember, starving yourself is not natural. If you would much prefer to buy powdered food supplements and appetite suppressants then that's your decision too. And if you really like working out 2 or 3 hours a day then good luck.

But when all else fails the *"Amazing Body Pro"* system will still be here for you. Unless of course the "big guns" manage somehow to shut us down.

The only way you can know for sure that the *"Amazing Body Pro"* system will work for you is to try it and see for yourself. And we want to make it really easy for you to decide to at least try it so here's the deal...

Try it for 30 days and if you haven't lost at least 30lbs we'll give you your money back... guaranteed!

Of course you might not want to lose as much as 30lbs, in which case we'll guarantee you'll lose any amount of weight up to 30lbs in 30 days. It's simple!

You decide how much weight you want to lose and stay with the system until you lose it. If you wanted to lose up to 60lbs of excess weight, then just continue using the *"Amazing Body Pro"* system for 60 days.

So our guarantee is that you WILL lose weight fast and you have the peace of mind of a full 60 days money back guarantee.

You have absolutely nothing to lose except that ugly excess body fat. And just think about what you could gain...

Will You Be Able To Handle All The Attention?

In just a few short weeks you're going to look better, feel better and get noticed by everyone for all the right reasons.

Imagine...

After a few weeks on the *"Amazing Body Pro"* system you're going to have to go shopping for a whole new wardrobe. Two, three or even four sizes SMALLER than you are now. Can you just see the look on the faces of your friends and family? They'll hardly recognise the brand new you and they'll be telling you how great you look.

And what could be more flattering than when a complete stranger looks at you in that certain way. You know... the way that says "Wow I really fancy you". It will happen all the time! You'll be walking down the street or shopping in a store and you'll catch a glimpse of someone looking at you.

Not like before. They won't be staring at you because you look really fat. Instead they'll be looking at you with admiration and intrigue. They'll want to get to know you. They'll be genuinely interested in you.

Your life will never, ever be the same again!

Isn't that a good enough reason to at least try the *"Amazing Body Pro"* system for yourself?

Now, as explained earlier we are so confident that you'll be more than delighted with the results of the *"Amazing Body Pro"* system that we'll give you a full 60 days guarantee.

Now here's the best part...

An Offer That Cannot Be Seriously Matched Anywhere On The Planet!

We know that there are similar products available and they are targeted at the high end of the market. We also know that these "special" weight loss products can cost an absolute fortune. They are obviously aimed at the celebrity types we mentioned earlier. So now here's where we upset a few people in the industry by offering you a similar if not better weight loss product at a fraction of the cost.

The high end products we mentioned retail at more than £97 for a 2 week course, but you can get a whole **60 days supply of our unique weight loss tablets for just £37.95**. That's less than half the price for more than 4 times the amount of fat busting tablets.

And here's something else...

It's not called the *"Amazing Body Pro"* system for nothing. And that's because... **it is a complete weight loss system.**

Order today and not only will you receive a full 60 days supply of quality weight loss tablets, **you'll also get these fabulous bonus products completely free!**
