

"You only need one good idea... to become very rich"

"You're Just About To Discover A 100% Guaranteed Way To Making More Money Than You Will Ever Need"

But Here's The Catch...

Dear friend,

Right here on this very page you'll find important information which could make you **seriously rich**. All you have to do is decide how much money you want, and when you want it?

Is it really that simple? Of course not!

You must be specific. Don't just say "a couple of million and I want it right now". That would be impossible, so be realistic.

If you want to make 1 million pounds within the next 12 months, then say to yourself out loud... **"I am going to make 1 million pounds within the next 12 months"**

Now, this is very important... if you truly believed that statement when you repeated it out loud, then you'll find all the answers to making your million pounds on this page, and in a lot less time than 12 months. But if you didn't truly believe in what you were saying, then keep dreaming.

Let's face it, millions of people dream about becoming rich but very few people actually do become rich... and why is this? Well it's because people who dream but don't take action to make that dream a reality **can never become rich**.

You see, if **Richard Branson** had just sat behind the counter in his first record shop all those years ago, dreaming about becoming rich but not actually doing anything about making it happen... chances are he'd still be there right now.

And if **James Dyson** didn't set himself the almighty task of finding a way to make a vacuum cleaner work efficiently without a paper bag, he'd still be vacuuming what might now be his very threadbare carpet.

The same goes for all successful entrepreneurs. They all became rich by taking some form of action to make it all happen.

So, if you truly want to be rich, what are **you** prepared to do to bring this very desirable situation about? Well, let's first take a look at what your options are...

Work extra overtime? Na!... that'll never work.

Get a better paid job? No chance!

Why? Well, unless you have an absolute God-given talent, it's unlikely you'll get a job that will pay you around £1 million a year... right?

So what does that leave you with?

Start your own business? Well, now we're getting warmer. If you start your own business and make it a success, there's really no limit to the amount of money you can pay yourself. But... there are all types of businesses and some are profitable... but some are definitely not.

For example, if you wanted to open a shop, you would have to buy stock, maybe employ staff and you'd certainly have tons of expensive overheads like, rent, rates, heating, lighting and insurance... all of these expenses will just eat into your profits.

No... that's no way to get rich. So let's look for an easier option...

Here's why you need to seriously consider this simple and very easy option...

Have you heard about people making money on the Internet? Well, who hasn't! There are hundreds of Internet marketers out there making an absolute fortune online, but how do they do it? Well before we look at some ways to become super rich from the Internet, let's consider the pros and cons.

What are the start-up costs of setting up an online business?

Well, you'll need a website and a product or service to promote. So, if you can't build a website yourself, you'll have to pay someone to do it for you. £200 - £300 minimum should just about cover it. Or, if you know someone that could do it for you, then maybe it could cost you as little as fifty quid.

Now, what overheads are associated with running an online business?

Let's see...

As you'd be working from home and very likely be working on your own... there are no real overheads, so there's nothing to add here.

Next, let's consider what it might cost you to buy products to resell to your customers?

Well, you could buy re-brandable products and costly resell licences, which will allow you to sell these products to others. Or, you could become an affiliate marketer and sell other people's products for a commission.

But... will you become rich by doing any of this?

The quick answer is NO!

So what products are going to make you rich?

The quick answer is... your own products!

What? You don't have your own products? Not a problem... just create some!

That's right! All you have to do is create your own product, sell it over and over and keep ALL of the profits. **Now, that's how you become rich!**

Richard Branson created his own '**Virgin**' brand and **James Dyson** invented and created the '**bag-less**' vacuum cleaner and **JK Rowling** created her famous '**Harry Potter**' books.

So, now that you know how to become very rich, the next thing you need to know is how and what can **YOU** create.

But wait a minute!

Before you start imagining yourself having to spend days, weeks or even months locked away in your garden shed, working on some 'out-of-this-world' invention...

You're about to discover how you can very easily and simply create your very own unique saleable product **in just 24 hours... or less**. And the best part is... most of these products can be created from the comfort of your own home using nothing more than your computer. Others can be created using a digital camcorder or an mp3 recorder.

So, what kind of hot selling products can you create?

Here's why this is probably the only way you'll ever become seriously rich...

The best people to explain about creating products are those who have already created very profitable products and made their fortunes this way. We're talking about world renowned super-rich marketers. These are people who have made hundreds of thousands of pounds from very simple products that you... yes **YOU** can very easily create by yourself... at home.

And now for some more good news!

We at xxxxxx xxxxxxxxx are delighted to announce that we have managed to track down no less than 7 very talented marketing experts, who have each created their own products, which have helped to make them... multi-millionaires.

Now, their insider knowledge, past experiences and a whole load of brand new ideas have been specially recorded on a 4 audio CD set... and the good news is... we have just been authorised to publish this valuable information and make it available to you.

There's not one tiny bit of hard work involved here, as all you have to do is listen to 7 great minds conjure up a whole host of cash generating products that can be created in just one day... or less... by you.

Now, imagine yourself as the author of a best-selling information product that sells like crazy all over the Internet. It takes you just one day to create, and yet you can sell it over and over again and again for years to come.

Let's just think about that for a moment...

Create a product today and be in business tomorrow?

Could you spare just one day of your life and create a unique product with the help and guidance of 7 highly successful marketing experts? Then, by using their ingenious marketing techniques you sell... say... just 10 of your products every day at a price of £29.97 each... for the next 6 months.

Let's see, that's 10 times £29.97, which is £299.70, multiplied by 182... makes £54,545.40.

Of course the product could sell for a full 12 months or much, much longer... and that's just one product. Now what if you created a different product every day for a week? And, used the same successful selling techniques, which will be explained to you... that would be 7 times £54,545.40, which is £381,817.80.

At this rate you could be a millionaire in a matter of weeks!

Okay, so this is just an illustration, but that's **exactly how it works**. You create your own product, you market the product and you keep all the profits. In fact making over £50,000 from one product is a very low estimate. Some online marketers can, and do, make millions of pounds from just one unique product.

Creating products to sell online or by direct mail isn't anywhere near as difficult as you might think. But because most people think it is difficult, they don't even try. Now, by simply listening to what has worked for the experts and what would work for you, you don't even have to think about it. All you will need to do is listen, and then do it.

And every single product idea that these 7 marketing geniuses come up with has the real potential to make you seriously rich beyond your wildest imagination. You've really got to hear it to believe it. Some of these great ideas have been proven to pull in many thousands of pounds, over and over again.

You'll probably kick yourself when you hear how easy it is to create a completely unique product that thousands of people will more than willingly pay you for.

And remember! It won't cost you anything but your time to create your own product... and it could bring you an avalanche of cash... every single day!

Here are the types of products that have proved to make mountains of cash...

There are literally thousands of products you can create, but to give you some idea... there are all kinds of information products, courses, tutorials, directories, books on just about any subject, films, software and... products you would never, ever even think about.

Most of the content and components for your products are already available online. All you have to do is download them and re-format them then re-package them or re-brand them. It's very, very simple... well at least it is when you know where and how to get them.

Okay, so creating products in a day or less is one thing, but the next thing you would need to consider is... how do you let everyone know about them? Where do you advertise? Well, that one's covered too. These guys have thought of everything. They'll even explain how you can get free advertising, free publicity and how to get others to sell your products for you.

You know, the more often you create your own products and set the advertising in motion, the easier it gets. Once it's all set up most of the selling operation works on complete autopilot, **making money for you 24/7**. And it's quite scary to think that this whole money-making process will become virtually unstoppable!
