### ***How Does It Work?***

It looks like a broad ballpoint pen and is convenient to carry around in a pocket or handbag. To use it you simply press the pointed end against the painful area of the body, click the red push button up to 30 or 40 times, and in most cases within 30 to 60 seconds the pain will dramatically diminish or disappear completely. It will even work through light clothing.

When clicking the push button, the pen delivers a controlled electronic frequency straight to the area of pain.

This electronic impulse encourages your body to produce its own natural pain reliever known as endorphins (natural morphine molecules), which help to numb the pain by reducing the onward transmission of pain sensations to the brain. The **Pain Gone** pen uses self-contained, natural crystal elements to provide the high voltage electronic pulse.

**You deserve a pain-free life**

**It is perfectly safe to use and has no harmful side effects.** It requires no batteries or leads and has no attachments whatsoever, making it convenient to use anytime and any place.

The **Pain Gone** pen is the safer, natural alternative to pain-killers and injections, ointments and lotions, heat wraps and sprays.

### ***Your Natural Remedy For Aches And Pains***

For swelling, sprains, tired and aching muscles, sports injuries, back aches and bruising, you need something that's cooling and soothing. You need a **Kool Patch**.

**Kool patches** are completely natural and contain the active ingredient *l*-Menthol, which is widely used and highly recommended as an effective, cooling treatment for muscular and joint pains. They are particularly helpful in relieving tired and aching muscles, backache, rheumatic and arthritic pains.

**Kool patches** can also be used as a convenient method of cooling the damaged tissue area following a trauma, injury or swelling. They act as an effective 'ice' treatment and can reduce the effects of short-term pain and swelling usually within 24hours.

The gel within the patch contains 0.5g of *l*-Menthol, which provides the cooling and soothing effect and also gives off a pleasant aroma as well. They are slim, flexible and can easily be cut to size. Just place against the skin, over the affected area for almost immediate soothing relief.

**Kool patches** come in a handy pack of 6 and are part of the **Pain Relief Kit**.

The **Pain Relief Kit** is the first natural pain remedy package of its kind, and proves that pain can be treated effectively without resorting to pain-killers, drugs, injections and other chemical elements.

### ***Psychological Stress And Tension Could Be The Cause Of Your Pain***

Some people say that pain is all in the mind, and to a degree that's true. Mental stress and tension can block the free flow of blood and the supply of vital energy, which can result in poor health and increased pain and tension. Relieving that stress and tension can help relieve pain. Most doctors have recognised that your state of mind has a direct effect on your health.

Stress can also lead to anxiety, which focuses the mind on negative thoughts and is brought about by some change in your lifestyle or other circumstances beyond your control.

The results of stress can manifest itself as depression or as physical pain, and needs to be treated accordingly.

Included in the **Pain Relief Kit** is a mental relaxation pain remedy to help those who may be affected by stress.
