

Let Me Show You How To Make An Average £500 A Week From Horse Racing... And It Won't Cost You One Single Penny Of Your Own Money... Guaranteed!

"My clients are making around £2,000 a month (tax free) doing something that takes less than a couple of hours a day... why not come and join us?"

Dear Horse Racing Enthusiast,

Actually if you're NOT a horse racing enthusiast you soon could be...

If I could show you how to make around **£100 a day in pure profits**... with no strings attached... no catch... no upfront fees and with no membership subscriptions, what would you say?

Yes please?

Now before you think to yourself that I'm trying to hook you into some kind of scam or illegal operation... I can assure you that I'm definitely NOT.

All I want to do is introduce myself and tell you how I can help you to make some very easy money from horse racing.

Then if you want to join me, I'll show you how you can do the same... **and what I can show you won't cost you one single penny of your own money.**

That's right! I 100% guarantee that if you follow my plan, you can make as much tax free profits as I do, every single week and it won't cost you anything.

Now allow me to explain...

I'm Damien Frost and I'm a professional horse racing tipster and full-time sports bettor. I make my living by creaming off the profits from certain horse race bets, which I and my colleagues select every day.

Our winning system is based almost entirely of race meetings held at both **Cheltenham and Newbury**. And why these two courses?

Well, it's at these two venues that my undercover agents are stationed. They hold well established positions and they are in close contact with EVERYTHING connected to these two top level race courses.

My "guys on the inside" send me **special information** that only someone who is present at the course on the day of the race could possibly know. Things like... whether the horse is having an off day and whether the jockey is feeling up to the challenge.

Of course there's much more to it than that but I can't possibly divulge every single detail because I have to protect my interests.

Suffice to say, having connections on the inside gives me several massive advantages over other tipsters and that's why I'm able to make a very good living from what I do. You see... **I simply have an edge!**

Let's keep this quiet!

Okay, £2000 a month may not seem like a fortune I know but that's just the tip of the iceberg for me. I obviously make a lot more.

In fact I can make 2 grand in a single day but of course that involves laying out big stakes on several selections, which is NOT what I expect you to do.

The reason why I'm saying you can make around £500 a week is because my system, which I'm going to tell you about in just a moment, is designed not to arouse suspicion with the bookmakers.

You see... if 100 people all place the same bets every day... that means the same stakes on the same horses... and each one of those people makes around £100 profit a day then they are sucking out £10,000 a day from the bookies.

It might seem like a lot but spread between 10 and 15 bookies, it's really nothing and they don't notice.

However, if this same 100 people got greedy and tried to double or maybe even treble this amount of profit then one thing is certain.

They'll all get banned, eventually.

And believe me it doesn't take long for your name to end up on a blacklist, especially if you bet online.

So my strategy, **which has worked well since 1998**, is based on taking the bookies' cash little and often. It's bit like pick-pocketing with a conscience. Think of it like lifting a bookie's wallet from his pocket, taking out a twenty pound note and then putting the wallet back.

Because his wallet is so loaded, he'll never realise he has lost money, and so you can carry on doing this forever.

It's good to remember too that his only purpose in life is to relieve everyone else of their hard-earned cash. So I think of it as just payback time.

Okay so you won't become a millionaire with my system and I'm not suggesting you'll be able to retire rich. All I'm saying is... **an extra £500 a week could buy you some nice little luxuries.**

For example, £2k a month could buy you a nice exotic holiday in the sun-kissed Bahamas where you could spend your days resting under the shade of a gently swaying palm tree.

Or how about a luxury cruise of the Mediterranean with its dazzling panoramic views of the deep blue sea and that warm ocean breeze caressing your face.

Within a few months you would make enough money to buy a nice new car. And it would probably be enough to pay your mortgage every month with some left over.

Well, you don't need me to tell you how much an extra £500 a week would mean to you. Just think about it and I'm sure you could find some very pleasant ways to spend it.

Okay, so let's get down to it...

Why are we doing this?

In 1998, I and a few other horse racing colleagues, who are also very well connected and make their living from horse racing, decided to offer a tipping service.

We did this simply because many people, mainly friends and relatives, were literally calling us up all hours of the day and night asking for horse racing tips.

And obviously... the reason they were doing this is because they all knew how very successful we all were.

Now I don't know about you but if someone tells me to put a 20 quid win bet on "Danny Boy", running at Chepstow in the 2.30 with a SP of 11/1 and it comes romping home with 3 lengths to spare... I'm going to be very grateful I listened.

In fact I'd be so happy with winning over £200 I'd give the man a drink. Well, wouldn't you?

Of course you would want to show your appreciation because you'd want that man to give you another winning tip some time soon... wouldn't you?

Well, as simple as it may seem, that's how our tipping service began.

Consider percentages...

Myself and my colleagues, all of which have built up connections within the horse racing industry over many years, were in a privileged position to help others make money... if they wanted to.

Now, one thing I should mention here is that myself and my colleagues are professional bettors and by that I mean we treat our betting as a **business**.

That means we calculate everything. Nothing is down to guesswork and it's all strategically planned.

Over the years we have learned that if you run your betting system like a business, then you tend to think like a business person and you don't take too many risks and therefore you don't make too many mistakes either.

Although there will always be risk of course, but it's how you manage that risk that makes all the difference.

For example...

We know, and so do you, that you cannot possibly win every single bet. However, if you work on **percentages** instead of being temporarily blinded by instant profit margins then you'll begin to see the bigger picture.

Look at it this way...

If during the course of 5 days you place 10 bets and each stake averages £50 with the average starting price being 3/1... here's the possible outcome.

Of the 10 bets you win 5 and lose 5. That's just an average. Now let's calculate this...

$10 \times £50 = £500$ (Total bets placed)

5 wins at average 3/1 = £750 profit

5 losses at average 3/1 = £250 loss (5 x £50 stakes)

Total profit for 5 days x 2 bets per day = £500

So, this simple calculation tells us we have to just make an average number of wins to make some big profits.

Now, we found... because of our insider information, that we could **hit a strike rate of around 70%**. Yes! That's pretty impressive right?

So here's what we did...

In 2009 we set up a company, which is called Casuti Ltd, and from that moment on we began offering our tips to the public.

Now here's where you're probably thinking... Oh NO! Not another horse racing syndicate.

Well. Yes and no...

Yes we are a syndicate but NOT like other syndicates. First, we like to keep a low profile for obvious reasons. We don't want any bookmaker's spies sniffing around our offices and reporting back, so we're very careful who we divulge our information to.

The only reason I'm writing to you today is because you have indicated that you want to make some easy tax free money for doing very little. And what we have here is the possible solution.

So that's why I would like to invite you to join us.

We make easy tax free money every day but the best part is we work out everything for you and all you have to do is place the bets on the selections we send you.

Doesn't that sound like fun?

Okay here's how it works...

When you join us we'll send you 4 to 6 selections each day. We have developed a special staking plan so we work out the very best selections, the amount to stake, (depending on the odds) and all you have to do is follow our advice.

Each day, on average, you should profit by around £100. Now I'm being very conservative here because I don't want to be accused of making any wild unsubstantiated claims.

However, the truth is **on our best day we made £720** and we've had plenty of £500 and £600 days but if I say you'll make £100 profit a day, then I'm comfortable that we can easily achieve that figure.

The amount you will need to stake on each race varies and could be anywhere between £10 and £80.

Very occasionally it might be as much as £150 but that's really quite rare... and remember... we generally achieve a **70% strike rate** so the odds are really well stacked in your favour.

And what's in it for us?

Okay, well I'm sure you'll like this because just as I said earlier, we are different to most other syndicates.

You will only pay us a commission when you actually win... and you'll only pay us 10% of your profits.

So, because you are only paying for our unique tipping service out of your winnings, **our service doesn't actually cost you anything.**

If YOU don't make money then WE don't make money. We really are all in it together (Ouch! Didn't some right-wing politician once say that?)

Anyway, the really crucial part of this whole system is our staking plan. It's **mathematically calculated and strategically designed** to make the very best possible selections. Our computers work overtime on this and the results have been consistent for many, many years.

However, as I said earlier, we stick to around £500 profits per week per person so as not to arouse too much suspicion from the bad old bookmakers.

What's in it for you?

Now, as one of our clients our goal is to make you a nice tax free £20,000 a year from our service. To make that amount from a "job" you would have to earn £25,000 and of course you would need to "work".

We don't like words like "job" and "work" but we do use the word "business" very often and if you decide to join us we would advise you to think of our association as a business.

It's surprising how different you will think and act when you consider your enterprise as a business.

I should point out that you should never consider betting as a hobby. Those that do, never win because they don't take it seriously. And on that note I must stress that we are only looking for **serious players**.

By that I mean if we send you 5 selections and tell you how much to put on each one, it's imperative that you do follow these instructions to the letter.

The whole staking plan that we operate depends on everyone doing their bit and sticking to the tried and tested plan that we have been operating successfully for many years.

Okay, by now and because you're only human, you'll either be feeling a bit sceptical, a bit unsure and maybe even a bit nervous. And that's understandable. After all you don't know me so why should you trust me?

Well the only way I can prove to you that our system really works is to let you try it for yourself and see...

So, that's what we're going to do!

Try this system for free...

I'm inviting you to try out our tipping service absolutely FREE for a whole month.

That means we'll send you the selections every day and we'll tell you how much to stake but we don't want you to send us one single penny of your winnings.

Then at the end of the month's trial if you're happy to continue then you can join our elite organisation and make a regular £500 a week profit for yourself.

Of course if at the end of the month you feel as though this is not for you then you can simply opt out.

There's **no obligation** to join us if you don't want to and there'll be no hard feelings whatsoever. At least you will have made some easy money just by partnering with us and giving our system a try.

Right, let's just recap on what is exactly on offer here...

- * Our aim is to help you make around **£2000 a month profit** from the horse racing selections we advise.
- * You simply **follow the instructions** we send you and place the bets on the horse races at the stakes we advise.
- * We'll send you the selections by text and email, so you will need to own an Android or iPhone.
- * We'll also send you daily profit and loss reports plus monthly reports for your records. (Remember you should ideally treat this like a business).
- * We'll give you a **one month trial period completely free of any commissions** so you can try the service for yourself and then decide whether you want to continue.
- * If you do continue to partner with us then you only need to send us 10% of your profits. We will invoice you at the end of each month.
- * There is no long term commitment and you can leave the syndicate at any time. (We would of course like at least a week's notice if possible so we can offer your place to someone else who may be on our waiting list).
- * We promise there will be no subscription charges or any upfront fees of any kind... ever!

Smart people don't work for a living...

Don't forget, we have been doing this for a long time and we are all very well connected with horse racing and especially at the courses I mentioned. Tipping is the business we are in and we are very successful at it.

When you join us you'll be sharing in our success.

The bottom line is we just love making tax free money for ourselves and our happy clients. £2000 a month profit is the equivalent of having to work 160 hours a month in a job for many people.

Smart people like you and I don't want to work all these hours but we do want a comfortable lifestyle.

And that's what we're offering you!

All you have to do now is simply complete the enclosed form and send it off to us today. We'll provide you with a hotline phone number and email so you can contact us should you have any queries whatsoever.

Now, there's just one more thing...

We can only offer this opportunity to the first **50 people**. That's because we already have a certain number of members in the syndicate already and we can only cater for a limited number.

Remember I said we have to keep this low profile and we don't want to arouse too much suspicion with the bookmakers.

So with that said, please try out our system for free and if we are over subscribed then you'll be placed on our waiting list.

Of course the surest way to join us and start making tax free profits is to get in as soon as you can. **This invitation is only going to be sent out once and this is it.**

Don't let this opportunity slip away... get your form back to us as soon as you can and join us in our fun, tax free money-making business.

Here's to our success...

Kind regards,

Damien Frost
