Now He Reveals How He Did It."***

Dear friend,

You're just about to be exposed to the most explosive information ever revealed. This really is life-changing stuff, but...

Firstly, I would like to personally congratulate you for taking action. You see, when you purchased a copy of ***"The entrepreneur's step by step business elevator system"*** you proved that you were someone who is serious about making money on the Internet.

Even if you haven't done anything more than watch the DVDs you purchased, you have still primed your mind for success.

By simply watching the experts in action, you have taken that very **first step** to making it all happen for you.

And now your journey to success and riches has just begun.

You are now ready to take yourself to the next level. But I must warn you... from here on it gets a bit hair-raising.

Now, let me tell you this...

"Never before will you have read words like you are about to see today"

The information you are about to be exposed to within the next 15 minutes is responsible for generating **billions of pounds** for super rich people from all over the world.

And what you are about to learn has made millionaires of some very ordinary, everyday people. The only knowledge they had before they became rich is exactly what you are going to have by the time you have read this report.

You don't need to have any particular skills or experience but you do need to have the drive and ambition to make a change in your life.

Are you prepared to step outside of your comfort zone? Will you be willing to accept change in order to get all the money you have ever dreamed of?

I think you are... and I think you are the type of person who is willing and ready to go all the way. You see, many people often talk about how much they would really love to turn their lives around...

But hardly any of them are prepared to even take that first vital step.

Well, you are already **light years ahead** of them and now you're going to find out how you can take that one final leap...

...right into the real and exciting world of Internet marketing, riches and a lifestyle you only ever read about in the Sunday papers.

Today, you are going to find out exactly what you need to do to move your success story into the next chapter. I'm talking about the next chapter of **your** life.

It hasn't been written yet, but you're about to change all that.

You're going to learn that there really is a fast-track method to getting rich. Others are using it right now, and the only reason you're not...

...is simply because you don't know how... yet.

Well, all that's about to change.

Today, within the next fifteen or twenty minutes, you will discover exactly what you have been looking for.

It's all here and absolutely nothing is left out.

Get ready for the truth... believe it... then act on it.

Why you must never, ever give up... no matter what obstacles are put in your way

Now, before we delve deep into the secrets and strategies that are going to make you very, very rich. I suggest you do not let anyone else see this report. **It is strictly for you eyes only...**

Okay... now you must realise that if you want to change your lifestyle then **you** have to change. You have to change the way you see the world and you have to change the way you think.

It's not difficult to change but it will take a little effort. The good news is it only takes a little faith and belief... **in yourself!**

That's right!

To change the way you see the world and to change your way of thinking you only have to have faith and belief in what you do from this moment forward.

Let me explain...

Firstly, to change the way you see the world you need to understand exactly where you fit in. You have to rid yourself of the thoughts that keep you bound in the lifestyle you currently have.

You see, if you work for a company and you get paid every month, you will soon become conditioned to thinking that that's what your working life is all about.

Even if you change your job, you will only be exchanging one set of circumstances for another. Everything else will be more or less the same.

Work... Get Paid... Pay Bills... Work... Get Paid... Pay Bills... Work...

Get the picture?

So, you have to believe that you can escape from this kind of mundane existence. And you will... but only if you have faith in your ability and belief in yourself. Plus... a little determination will come in very useful.

The next thing you have to do is what you have already done. Take action. You have already taken the first step, but there are a few more steps you must take before everything will begin to come together.

So, you must keep that momentum going.

If you really, really want something then you must keep taking action so that you can get closer to having it. That's what it's like when you first get started in business.

But you must never, ever give up... no matter what obstacles are put in your way.

Okay, so if you can change the way you think then you will begin to develop a new mind-set. You will re-programme your mind for success.

Can you do it? Of course you can!

It's what every successful business person and entrepreneur has had to do, and if you can do it then you are within reach of all you have ever wanted.

The money... the freedom... the lifestyle... the big house... the new car... the new wardrobe... holidays to anywhere in the world... everything!

Making sense of it all

If developing the right mind-set is going to move you closer to your goal of becoming incredibly rich, then this next step is going to get you even closer still.

You wouldn't think that by being specific about exactly how much money you want is going to make a difference in obtaining it, but it does.

The mind is a strange thing and we will never truly understand how it works. But what we do know is there are two parts to our minds.

1. The **conscious mind**, which we use when we are awake and 2, the **subconscious mind**, which becomes more active during periods of sleep.

Each part has to deal with very different aspects of our lives.

The conscious mind is bombarded with all kinds of problems that have to be dealt with on a daily basis. It tries to deal with and make sense of everything... and most of what it has to deal with is completely illogical... to the subconscious mind.

Now the subconscious mind is more like a computer. It deals only with logic. And what a lot of people don't realise is you can use your subconscious mind to acquire wealth. **Yes! Money!**

This is what rich people do! This is the BIG secret!

But you must be specific.

You see, your subconscious mind is fed information from your conscious mind and it tries to make sense of it. That's why dreams always seem to be all mixed up.

The subconscious mind takes bits of information, analyses them then stores them away in memory banks. If any of this information seems to be irrelevant to your life or if it cannot be quantified, then this information is temporarily discarded or put into a kind of recycle bin.

Then, if other bits of information become available at a later date, and if there appears to be some kind of link, it will all be analysed again. It's like putting a big jig-saw puzzle together.

We don't realise it, but this is how we make sense of the world we live in.

So what's all this got to do with making money?

Remember I said you have to be specific about how much money you want?

Well, the reason is because your subconscious mind must know how much it has to help you acquire and then it will come up with a plan to help you get it.

You see, if in your conscious state of mind you said to yourself "I want to be rich", that doesn't tell your subconscious mind very much. It's not specific, so your subconscious mind will put that information in the recycle bin.

But if you say to yourself "**I want to make 10 million pounds**", then the subconscious mind has something to work on.

Now if you keep telling yourself that's exactly how much you want to make then your subconscious mind will begin to work out a way for you to get it.

That's its job. That's what it is programmed to do. Remember... it's a computer.

No one can ever taste the fruits of wealth without first developing the mind-set of the truly rich and famous

Now we're getting somewhere...

I bet you didn't realise that you had to know all this stuff then apply it to become rich. Well, don't worry... you're not the only one.

Millions and millions of people don't know about this and that's why they will never, ever become rich. What you are learning right here today is **privileged information**... and it's known only to a very few people.

Those people just happen to be very rich... is there a connection? **You better believe it!**

Earlier I told you that from here on it gets a bit hair-raising and I wasn't kidding. There's more... much more...

So, you must have faith in yourself and you must have self-belief. You must tell your mind exactly how much money you want and you must do this every day. So what else is there to know?

Well, let's get right back to specifics...

If you tell yourself that you want 10 million pounds, your subconscious mind **WILL** work on a plan to get it but it won't be in any hurry. Why?

Because you haven't told it **when** you want the money.

You have to tell your subconscious mind exactly how much you want and exactly when you want it.

You have to be careful here and you have to be realistic. It's no good saying "I want 10 million pounds and I want it next week". That's just not possible. But what is possible is what we already know...

For example, we know that some people have made 10 million pounds or more from their Internet businesses within 5 years. Some have even done it in 3 years. So let's choose a period in between and say 4 years.

10 million pounds really is a lot of money and 4 years is not a very long time so I think that would be a fair request, don't you?. Of course you could break it down to 5 million in 2 years or 2.5 million in a year.

The main point is you must be specific.

At this point don't think about how you are going to acquire this money. Don't let any thoughts about working for it enter your head... I'll come to that part later.

Now... have we been specific?

Well, not quite. It's still a bit vague. Let's see if we can clarify our instructions. And they are instructions so we must be sure our subconscious mind gets the message loud and clear.

Try this...

"I want to have 10 million pounds in my bank account by 9am, Monday February 11th 2013". **Now that's specific!**

Get the idea?

Right, let's move on because there is a lot more to come...

***These are the only secrets that
can and will make you seriously rich!***

Believe me... you won't find this kind of information easily anywhere else. Most of what I'm revealing to you today has been kept a secret for many hundreds of years!

And it's only because you have shown an interest in securing your future that I am even telling you about any of this stuff.

If you hadn't bought a copy of "***The entrepreneur's step by step business elevator system***" you wouldn't be here right now and you would never know about this very important information.

This is information that is going to make you extremely rich.

When you hear about secrets to becoming rich, these are the **ONLY** secrets that can and **WILL** make you rich.

Okay... let's move on.

There is more that you must know before you can put your new wealth building plan together and really get started in the Internet marketing business.

What you have just learned about the conscious and subconscious mind is very important but you have to take it a step further. You have to make your request or your instruction a goal.

That means that you must write it down. Just about every successful millionaire does this or has done it to acquire their personal wealth. I guarantee it.

So if it's good enough for them...

Right, another thing you should know is that you can write down as many goals as you want.

Want a new car? Write down a goal. Want a new house? Write down a goal. Want to make something happen in your life? Just write down a goal.

But remember! You MUST be specific.

Here's an example of how to write specific goals...

Goal #1

I want to have 10 million pounds in my bank account by 9am, Monday February 11th 2013.

Goal #2

I want to own a brand new Red BMW M3 Convertible by 11am, Tuesday June 23rd 2009.

Goal #3

I want to own a 4 bedroom, luxury Villa on Abaco Island, Bahamas, Caribbean by 8pm, Thursday August 12th 2010.

As I said, you can have as many goals as you want, but be specific and be realistic about the time it will take to acquire them.

When you have written out all your goals, you must say them out loud twice every day. Once in the morning and again before you go to sleep.

The reason why you must say them out loud twice a day is to implant these statements into your subconscious mind. They will become daily affirmations and your subconscious mind will work overtime to find ways for you to achieve your goals.

Make no mistake! These are the REAL secrets to wealth.

In the words of the great and famous Napoleon Hill... *"What the mind of man can conceive and believe, it can achieve"*.

Are you ready to become a "superstar"?

Wealth... what does it mean to you?

It means different things to different people, but what it can mean is something you might just have to deal with... and that is... celebrity status!

It's something that follows rich people around wherever they go. So to deal with it some rich people will openly do good deeds, whilst others will shun the limelight and hide away from the world like hermits.

As you know from the media, many rich and famous people like to be seen publicly doing some good with their money. For example, many of them attend charity dinners and fund-raising events.

Others might do the same but for different reasons. Maybe so they can meet and rub shoulders with other classy and wealthy celebrities.

Some might say that rich and famous people do this kind of high profile socialising so that they can feel better about themselves. Personally, I

can't imagine why any rich and famous person should feel guilty about having so much money. Would you?

Perhaps they put on their best frocks purely for the recognition or to just wallow in the limelight. Well, for whatever reason, it really doesn't matter. The fact is they **CAN** do it...

What you must realise is...

Being very rich is like being a member of an exclusive club.

The Rich People's Club!

And it doesn't matter what background you are from, how old you are, whether you are male or female... or how you became rich... **it only matters that you are rich.**

Now, let's face it... being rich means much more than just having a lot of money. It can bring respect, recognition, and celebrity status. And, there's no doubt that being rich can help create or enhance your reputation.

Still want to be rich?

Silly question right?

Being rich can make you look and feel like a real superstar!

Being rich can make you feel important, it can make you feel substantial... a somebody as opposed to a nobody. Others will see you as a force to be reckoned with, someone that people will listen to, a persuader, an influencer a highly respected member of society.

It's a fact! Rich people get heard, rich people often get their way and rich people have a much better time than poor people do. So given the choice which would you rather be?

Yes absolutely! Most people would rather be rich... for whatever reason.

Okay, well you are already on your way to becoming very rich but there's still a few things you need to know before you can put the boat out...

In just a moment I'm going to let you know about the mechanism for becoming rich. This is the vehicle that is going to take you to that place you want to be.

Use this knowledge in conjunction with what you have already learned and there will be nothing that can stop you from becoming rich beyond your wildest imagination.

It's the last part of the plan... the final and most rewarding step of all.

But, it's important that you fully understand where you are now and how the new you is going to emerge. So, before you can become super rich, powerful and get the respect and recognition you truly deserve. You must consider this...

"No one ever got rich by working for someone else"

What's sad but true... is that many people in the UK have just enough money to last them about 4 weeks! And when it's gone, they will need to rely on benefits to survive. That's the value of working for someone else.

Working for yourself is the answer to making unlimited amounts of money and it's also the answer to securing your future. When I say working for yourself I mean starting a business that you can run from home.

An Internet based business... not a traditional type of business.

A 'traditional' business is definitely NOT the way to go. By 'traditional' I mean a bricks and mortar type business. You know the sort I mean... operating from a rented property, a yard or a factory or a rented office.

Just don't do it! Don't even think about it. It will cost you big bucks to keep a business premises going.

First there's the rent or lease to consider, then there's commercial council tax (rates), and insurance, lighting, heating and security... and that's before you have even sold anything! Then it could get even worse...

You might have to travel from your home to your place of work, which means more unnecessary expense and precious time wasting. Then you might have to do the unthinkable. You might have to employ... staff.

You'll have to pay wages, holiday pay, employer's NI contributions... and they're sure to let you down when you need them most. Just don't do it... it's not worth the trouble.

If you start this kind of business, you just might live to regret it. Hardly any kind of business like this can ride out a recession.

The only **real** alternative is the Internet.

If you haven't started your own business yet, this is the only way to go...

All you need is a table or desk, a printer, a computer with Internet access and a telephone. And you probably have all these things in your home already, so this basic start-up equipment won't cost you anything. Next...

You'll need a website, a product and a credit card payment processing account. This little lot could cost you as little as £50 all in to set up. Then you'll need to advertise.

Well, there's paid advertising and there's free advertising and both will work just as well. Writing and submitting a free ad, designed as an article, will cost you nothing except a little time, and it will get visitors to your website.

But the best part about this kind of business is... **100% of the profits from your sales will be all YOURS!** That's important to remember because when you can keep all the profits from the sales of your products **you will become richer much quicker.**

To accelerate the wealth programme, you simply repeat the selling process over and over so you have multiple products selling all over the Internet creating multiple income streams for yourself.

Then you can add more income streams by promoting other people's products for big fat commissions of up to 75%. Then you can create some Google AdSense pages, where you make more money every time someone clicks on a Google ad.

Then you automate everything as much as possible, take a big bundle of cash from your business profits and go on a 3 week long relaxing holiday while you think of more ways to make money.

That's how it's done!

Just think, while everyone else is working flat out in their dreary day jobs and working a few extra hours overtime for a few extra quid, you could be living the high life and not have a single care in the world...

So, which kind of business would you like to be in? Bricks and mortar or Internet?

Phew! There's no comparison.

Here's how to make £40,000 a week!

Now just before we move on and I tell you how you're going to get into the Internet marketing business in a BIG way extra fast, I want you to take a look at a simple piece of arithmetic.

This is an example of how Internet marketers become rich... fast!

Now, let's say you have a single product that sells for £19.97 from a one-page website. Typically it would be an ebook. It costs you say £4 to market each product sold, so you make £15.97 clear profit from each one.

If we assume you sell a very conservative 10 products a week, you will make £159.70. You then repeat this little project 5 times more, using different products and targeting different niche markets.

So that will give you... $6 \times £159.70 = \mathbf{£958.20 \text{ per week}}$

Next, you join a free affiliate program like Clickbank, where you promote 10 different products and each sell for an average price of £39.97. You get paid an average of 65% commission on every product that you help sell.

Again, you sell a very conservative estimate of say 15 products in total each week, and your marketing costs are 10% of your commission...

$15 \times 39.97 = £599.55 \times 65\% = £389.70$ less 10% = **£350.74 per week**

Then you set up your Google AdSense on all six websites and you make on average a very conservative £3 per day from each site.

$£3 \times 7 \text{ days} = £21 \times 6 \text{ (websites)} = \mathbf{£126 \text{ per week}}$

Now, the question is... how long would it take to set all this up?

Answer... about 48 hours!

How much time would you have to spend on it once it has all been set up?

Answer... about 15 minutes a day!

And how much money does it bring in each week?

Answer... **£1,434.94 in pure profit!**

So, if you wanted to spend a whole hour a day working on your business, you could make 4 times as much, that's... **£5,739.76 a week!**

Now, here's the important part...

This amount of weekly income is from just 3 simple income streams.

We haven't even touched on setting up your own affiliate programs for your own products, creating membership websites, building one-page Google AdSense only websites, doing joint ventures, email marketing, list building, offline advertising, direct mail and many other ways of making money...

The reality is you could set up as many as 10 totally different income streams, each bringing in an average income **of £4,000 a week!** That's a total of **£40,000 each and every single week!**

That's a cool 2 £million a year!

Now that's what I call a real business!

Your team of personal millionaire marketing coaches are now ready...

So, just exactly what do you have to do to get all the money you could ever possibly want?

The information, the techniques and strategies revealed in this training programme are absolutely ground-breaking!

Now it's Showtime!

The list of contributors reads like a *who's who* of Internet marketers and includes...

Patric Chan

From humble beginnings as a door to door greetings card salesman and with a less than basic education Patric is now a very successful Internet marketer. He successfully demonstrated his abilities in a unique experiment back in 2006.

In this particular demonstration, Patric showed how he could generate **\$36,316.65 USD** in sales and in real time in just 3 short days. This was highlighted on stage during an Internet marketing seminar.

Patric proved he could make a 5-figure income by selling digital products using emails and web pages. And he did this right in front of a live audience.

To support the evidence that Patric uses an Internet marketing system that anyone can duplicate, he demonstrated it again in Jakarta, Indonesia, 3 months later... again...live on stage.

What a showman!

Patric Chan is a self-made millionaire and has been marketing online since 2003. Now, when you think about it that isn't a very long, but it just goes to prove that anyone can make millions on the Internet in a very short time.

Just recently he has been credited as the pioneer of a brand new concept in Internet marketing known as...

Niche Marketing 2.0.

Many thousands of people have now learned from this new technique... and so will you because that's what Patric explains in his presentation.

Patric is so far ahead of the game that many other marketers are still playing catch-up!

In this unique video presentation Patric looks at a classic model of niche marketing and points out how the web is changing. Marketers have to therefore change the way they present their products and services to counter this change.

On the surface, Niche Marketing 2.0 is about how to build a website fit for purpose in the ever-changing medium of the Internet, and exactly what it should consist of. This is about site layout and design and about content and user friendliness.

But it's also much more than that...

It's about building a valuable business for life and a business that you could sell on. It's about creating an asset and it's about dominating your chosen niche.

This is how Patric is now steadily increasing his wealth, and just like his previous demonstrations, this is something you can do.

Look out for Patric's "**Long Tail Traffic Method**"... another revolutionary concept.

Next... no Internet marketing training programme would be worth its weight without a contribution from...

Matt Bacak

I could instantly see that Matt Bacak was going to hold nothing back. He was openly letting everyone know about his strategies and his marketing techniques that have accounted for **millions of pounds in sales**.

He tells you right up front that he is going to reveal everything about how he makes money with his business... and he does exactly that.

Matt says the best way to come up with a good sales letter for your website, especially if you're new to this type of marketing, is to look at what other people with similar products are saying in their sales letters...

... then do the same... not copy... exactly, but... reword them.

He then goes on to say that there are certain elements of your website that you need to be aware of. These are the parts that need to be designed specially for the selling process.

There are tricks here that can make all the difference between making a sale and your customer making a hasty exit from your site.

Matt's websites pull in around **2.5 £million a year** in sales. He has thoroughly tested each element and has fine-tuned everything. Now his websites continue to make money automatically. Remember! Automation!

Do you like the idea of making money while you're sleeping or on holiday or while you're playing golf? Can you imagine...

You go on a 2 week holiday, you come back, turn on your computer, go to your online bank account and see that you made a cool **£80,000** while you were away.

Matt Bacak is an Internet marketing millionaire, who is going to show you exactly what he does and how he does it in "**The Millionaire Mindset Super Success System**" DVD training programme.

Matt says his computer is like an ATM...

Whenever he wants more money he just turns it on, makes a few clicks here and there and tops up his bank account.

It's important to remember that Matt Bacak started out with nothing more than a PC with Internet connection. And he says if he had to start all over again from scratch... he could be back where he is now within months.

Watch and listen as he reveals the **3 Golden Keys** to building a multi-million pound empire.

He also goes on to explain how to get traffic to your website, so you can build that all-important list. This involves some advertising... and some other ways of generating visitors, which are free.

He explains how you should write your ads for maximum impact and how to increase conversions. He talks in depth about creating a squeeze page so you can capture your prospects name and email.

You really must know about all this stuff if you want to make vast amounts of sales and millions in profits. He makes it sound so simple, but when you hear him uncover the secrets and reveal his strategies...

... you soon realise it really is simple. It's just a case of knowing what works.

You will learn so much from this workshop you'll see why so many people were willing to pay so much money to attend.

One way to get traffic to your website almost instantly is to do joint ventures with people who already have lists of prospects. You can also get visitors to your website by getting your ad into other people's newsletters.

Another way to get traffic to your website is to get other websites to link to yours... this is a neat little trick and not many people know about it. Matt tells you how to do all this stuff... and more. A lot more!

There's so much information in "***The Millionaire Mindset Super Success System***" DVD training programme, and I couldn't possibly cover everything in detail in this report.

This workshop is 8 DVDs long! So, I can only give you a general idea about what is revealed, which includes...

Exactly how to set up an autoresponder and how to install it into your squeeze page. Plus how to upload your web pages to the Internet and how to register with search engines and directories.

This workshop is for everyone... whether you have little or no knowledge about Internet marketing or whether you already have a website up and running.

There's so much information, secrets, strategies and formulas that anyone who watches will benefit immeasurably.

Without a doubt, the one most important aspect of Internet marketing is traffic. I cannot emphasise this enough. Without traffic you just don't have a business. Without traffic you can't make sales and you won't get to build your list.

It's just as well that it's all covered in this course including...

How to get free 'organic' traffic by getting your website ranked higher in the search engines and generally how to out-smart other marketers in the search engine ranking game.

You will also find out how to get even more traffic by using press releases and writing articles.

Matt explains how to design your own website for maximum response and he also suggests a couple of free html editors you can use. And you don't need to know anything about html code either, because creating a website is just like using a word processor.

One of the quickest ways to get traffic to your website is with Google Adwords. Matt explains how to write your ads in a way that is most cost-effective and he even tells you how to out-score your competition.

Phew! This is amazing stuff!

And there's a lot more from Matt as you will see, but next up is...
