

"If you want to make a living on the Internet...
then you simply must have this..."

Just Released!

***"Discover how 3 desperate guys made
over £12,000 in under 24 hours, by
stumbling upon a dirty little secret and
shamelessly exploited it to make
over £35,000 in just seven days"***

Dear friend,

Are you looking for a way to make some extra cash? Maybe a few extra pounds to help pay the bills? Well if you are, what I'm about to tell you might not be for you.

Why?

Because what I'm about to reveal is only for **serious** players. I mean people who want to become very rich, people who want to retire early and people who want to change their dreary lifestyles.

It involves starting a business. Not any old business, but an Internet business. So that means you would have to do a little 'work' to get it started.

But the good news is, when it's all set up and running you can just leave it to generate an ongoing income stream.

Then you can repeat the process over and over and set up **multiple income streams**.

How much money can it generate?

Well, one man made £5 million in a year. How does that sound?

And he is just one of many people reaping a harvest of cash from a simple Internet business. What's more, **this something you could do**, if you only knew how.

Want to know more? Then just read all of this report and you'll discover some secret techniques and strategies that are turning ordinary, everyday people into **multi-millionaires**.

"The secret to acquiring untold wealth is to simply copy someone who has already made it"

Before I begin, I assume you really do want to know more because...

You would like to give up your job, work for yourself and make a ton of money, right?

You want to...

- **Fire your boss and work for yourself**
- **Work the hours that best suit you**
- **Take time off when you feel like it**
- **Work from the comfort of your own home**
- **Make more money in a month than you used to make in a year**
- **Afford to buy a new house**
- **Afford to buy a new car of your choice**
- **Afford to take holidays to any worldwide destination**

Well I sincerely hope you do. Otherwise why would you be reading this report? This is all about making money. Real Money! Big Money! It's about YOU and YOUR future.

So, are you ready?

Then I'll begin...

The very first step to becoming a millionaire is to take action. It really is that simple.

If you read this report and then do nothing, then nothing in your life will ever change. You will just carry on doing what you are doing right now and every day will be the same as before. And you will just keep getting the same results.

So, the first thing you have to do is promise yourself something, but only if you really are serious about getting out the rut and moving forward with your life. You must promise yourself that you are...

... definitely going to take the first step to making a big change.

Believe it or not, taking action is the hardest part of changing your lifestyle. Everything else pales into insignificance compared to taking that first step.

Why?

Because to take action and do something means you will have to get out of your comfort zone. You see, it doesn't stop there. When you decide to take that first vital step, you will have to take a second step and a third.

If it is already beginning to sound like too much work, then this is not for you. As I said earlier, this is **only** for people who are **serious**. People who want to be seriously rich.

Is that you?

"Have you got what it takes to start an Internet business?"

Okay, well the next step to acquiring untold wealth is to simply copy someone who has already made it. **How simple is that?**

Can you believe it? All you have to do is follow a tried and tested blueprint for success and you too will become rich and successful.

It happens all the time. It's happening right now. And if you're ready to follow a set plan, it could happen to you.

Many people, understandably, have a problem with this aspect of starting a business. It just seems far too easy. It seems much too good to be true.

Maybe you're thinking the same. Well...

How difficult do you want to make it?

You can make starting a business really difficult if you want to. For example you could open a shop. Now let's see...

- ✗ You will have to rent a shop or buy a lease...
- ✗ You will have to contact suppliers...
- ✗ You will have to apply to open accounts...
- ✗ You will need to provide fixtures and fittings...
- ✗ You will need to buy stock, and lots of it...
- ✗ You will need business insurance...
- ✗ You have to pay for lighting, heating and business rates...
- ✗ You might even have to employ staff...
- ✗ And unless you have enough money to cover all these outgoings you might have to get a bank loan.

Oh...and you will need customers, regular customers and lots of them. The best you can hope for is that customers will come to you and buy your products.

Just about every traditional type of business is affected in a similar way. It's no wonder many people only ever **think** about starting up.

But, why bother with all that nonsense? All this will only create stress and worry and who needs it when you can make much more money on the Internet, starting with a heck of a lot less.

So, the question is... what do you need to start an Internet business?

A computer with Internet access, a telephone, a printer and a product or service. That's it!

You can work from home in a spare room or just from a table in the corner of any room. You can start in your spare time, then give up your day job and go full-time when you're making a good regular income.

So... interested?

Okay here's how it's done...

"Imagine an endless flow of money coming to you from all over the world, day and night, 365 days a year"

What you need is a guaranteed step by step success plan. Each step must have been thoroughly tried and tested and proven to bring results.

After each step has been followed to the letter, the plan will come together and you will start to make money.

When this **income stream** has been set up and it's all running smoothly, you can automate it and move on to the next project. That's the big advantage an Internet business has over any other kind of business...

Automation!

The technology exists for you to set up a business then put it on automatic pilot. Your automated business will keep making you money whether you are in front of your computer or not.

It will keep making money for you when you are sleeping, when you are doing the things that you enjoy most and even when you are on holiday.

Now that's what I call a business!

And the beauty of it all is that you can just repeat the process many times over so that you actually create **multiple income streams**.

That means tons of cash coming to you every day. It means a steady flow of money flooding into your bank account every month. And the scary part is...

Once you have created your Internet business empire, it becomes virtually unstoppable.

Imagine, an endless flow of money coming to you from all over the world, day and night, 365 days a year.

So... how do you get started?

Earlier I mentioned the step by step process, and now I'm going to tell you how it's done.

First off, don't worry if you think you don't know anything about websites and all that stuff. There is a solution to anything and everything you might encounter, as you are about to find out.

Right... let's start with the hardest part of making money online. You will need a website, a product, a way to accept credit card payments and you will need customers.

There are several other ways that you can make money on the Internet and I will come to these much later. But for now, let's look at this aspect.

Can you build a website? If you can that's great but if you can't, can you get someone to build a website for you? A relative or a friend? Maybe a student? If there isn't anyone you know then you can always use an outsourcing service like elance.com or getafreelancer.com.

The next thing you will need is a product. Now you can either buy the resell rights to an existing product or you can **create your own**.

If you buy the resell rights to a product it means you can sell that product over and over and keep all the profits. You can buy a product which comes with resell rights, on the Internet for about £20.

Have you ever thought about creating your own product?

It's easy! All you need to do is write 20 or 30 pages about something that you know a lot about. Or, interview someone who is good at something then write an account of the interview.

Or better still, record or film an interview with someone who is particularly good at something or very knowledgeable about something.

That's how you create a unique product.

And, what are the best products to sell on the Internet?

Information products or software products.

Why?

Because they can very easily be delivered to your customer electronically, which means... instantly. You will never have to physically handle anything. The whole selling transaction will be automatic.

"How to make money automatically..."

You see, any product that can be turned into a digital product can be downloaded from a website directly onto someone's computer. It might all sound a bit technical, but it can be set up in minutes, when you know how.

Again, if you don't know how to do this yourself, there are many people who do. If you wanted to learn how to make products downloadable from a web page, there are many free tutorials on the Internet. Just go to Google and type in 'how to make a download'.

There is so much information on the Internet, you can literally find out how to do just about anything.

The next thing you will need in order to make a sale from your website is a payment processor. You could open a merchant account for this but that can be expensive. Better to use a payment processing company like PayPal.

They'll give you some code which you then place on your website and it will form a 'Buy Now' button. When someone is ready to buy, they simply click on this button, make a payment and the money goes to your PayPal account.

You then transfer the money into your bank account... **simple!**

Now, before you can make that first sale you have to get **traffic** to your website. Traffic is the term used to describe your website visitors. You have to let your prospective customers know that you are open for business and you have to let them know where you are.

There are many ways you can get traffic. Some will cost you and some are free. I'll tell you more about generating traffic in just a minute. But before I do, let's just look at what has been covered so far.

Here's how it all works...

You have your web page, which will need some sales copy explaining what the product is and what it does and why your customer should buy it. You also have some pictures of the product on the web page.

You also have a PayPal button on the web page so your customers can instantly buy a copy of the product.

When they have made a payment they are automatically redirected to a download page, where they can download a copy of your product. They get the product electronically and you get their money, electronically.

You didn't have to meet anyone, you didn't have to speak with anyone and you didn't need to be on your computer when the sale was made.

It was all done on **automatic pilot**.

Now, that's how you set up a profitable Internet business. And that's called an income stream.

Wouldn't you like to have a business that runs like this?

Okay, so maybe I made it all appear too easy, too simplistic. Well, that's because it is... and it gets better...

"You have the option to join those who are already on the road to riches"

Remember the step by step plan I mentioned earlier?

Well, what if you could watch and listen to an expert as they explain, step by step exactly how and what they did to make **millions of pounds** from their Internet business?

That would take out a lot of the guesswork and also eliminate much of the risk... right?

If you were shown how to do something that accounted for millions of pounds in profit, then all you would need to do is copy that system and you could do the same.

This is what successful Internet marketers have been doing for years.

You see, someone comes up with a good idea to make money, and they set it all up and try it. They tweak it and test it and test it and tweak it until everything is working as it should.

And if it makes a lot of money they tell everyone else about it.

Now as you probably know, there is always more than one way to do something. But as far as we're concerned there are only two ways... the wrong way and the right way. Or the long, expensive and painful way and the shortcut to riches easy way.

I know which one I would go for...

And this is the way you need to go. If you're ready to take that first big step, then today you have that option.

Today if you decide to take action and begin on the journey that will change your life forever, then today you have found the very thing that will help you.

Here is your step by step blueprint.

This is the plan that has already accounted for millions of pounds in profits. This is the business strategy that will put you on the right track to making an absolute fortune and change your life beyond your wildest imagination.

Today, you have the option to join those who are already on the road to riches.

Introducing, ***"The entrepreneur's step by step business elevator system"***

What is this?

"It's YOUR success formula!"

This is the foundation on which your future is going to be built. This is the revealing truth about Internet marketing and how to make **massive amounts of money**, working from home on your computer.

This is what you have always wanted and needed to help you get started, but it never came your way before. This is your lifeline, your once in a lifetime opportunity.

Let me explain...

My name is Robert Swan and I'm the Managing Director of Markitscope Limited. I source Internet business opportunities for absolute beginners and veterans alike. I search all the markets in all four corners of the globe for products that will make a difference to people's lives.

My business is about providing quality information products about **how to make serious amounts of money from the Internet**. These are training and tutorial DVDs, audio recordings and software programs.

The products that my company supplies are unique and cannot be bought in the shops or anywhere else. My company is the only distribution company in Britain that can offer you "***The entrepreneur's step by step business elevator system***"

Here is the package...

DVD #1 features a true Internet marketing guru. He is the guy other Internet marketers go to for advice and up-to-the-minute information about what works online.

This Internet marketing expert made **£5 million** from his Internet business last year and he puts it all down to generating traffic. Website traffic is the lifeblood of any Internet business and you're going to find out how you can generate it...

Tons of it!

You can't make money online without traffic. It's the most important thing you need. It's more important than a website and it's more important than your product. It is THE most important aspect of your business.

You'll find out how to get traffic for free and how to get it quickly if you're prepared to pay for it.

You'll find out how to capture it and funnel it directly to your website so you can build a list. A list of people's names and emails is what is going to make you very, very rich.

And the larger the list, **the richer you will become.**

Generating traffic is so important that a whole DVD has been allocated to it. You'll be in good hands with this man. He is going to show you how to create your business from a reverse aspect. That is, get your customers first then sell to them later.

The second part of the "***The entrepreneur's step by step business elevator system***" features a 23 year old Internet marketer who went from zero to hero in just 10 months of starting an Internet business. Now he makes thousands of pounds a week from his various Internet businesses.

This young man is going to share with you his passion and his profit plans for building a six-figure income business from scratch. He explains what you need, what you have to do and how you are going to do it.

If anyone fully understands the principles behind the step by step success formula, then this man does. He tells you how to get started and how to make money.

That's what you want right?

And if he can do it, at his tender age, then just about anyone can.

If you're serious about making **serious** money, then you really can't afford to miss these 2 great training DVDs.

Order today and they can be yours for just £67.95 plus £3.25 postage, packing and insurance.

Order today and I'll even include a valuable and very useful bonus for you.

I'll give you 4 ebooks to help you on your way...

★ ***How to Create a Website in 5 Days.***

This guide explains exactly what you should do to get your own fully functional website **up and running within days**. Read through this and you'll be building websites like you've been doing it all your life.

This easy step by step guide has been specially written for the inexperienced, so there's no technical jargon here, just plain and simple instructions. A very handy guide to have in your ebook library.

★ ***17 Simple Steps to a Killer Sales Letter***

This is a Bryan Winters' guide to writing a full blown sales letter. If you want to sell anything online or offline then you need to know how to write sales copy.

This could be a sales letter for your website or a direct mail letter. Or, it could be an ad or an email.

Sales copy has to grip the reader and lead them along a well defined path... right to the point of sale. Then it has to convince the reader that they simply **MUST** have your product.

Would you like to be able to write sales copy like that?

Imagine...

Every time you write a compelling sales letter you hypnotise your reader into buying your products. How powerful is that?

★ ***The Niche Report***

Written by top Internet marketer, Harvey Segal, this guide walks you through the various aspects of successful marketing.

Discover powerful techniques and secret strategies that are used by the millionaire marketers to **generate thousands of pounds every week**.

Marketing is the most important part of your business activities. It helps if you know what you are doing and that you know the right things to do.

In simple terms, you choose a niche, you find out what they want and you give it to them. This guide will help you understand the principles of laser targeting your marketing efforts for maximum returns.

★ **The Formula**

Now it's all coming together. All the bits of information in this complete package are designed to get your Internet business up and running and into profit as quickly as possible.

When everything is in place, just read this report to be sure that you have created the perfect success formula.

It's a kind of checklist, which ensures that you have left nothing out. It can save you a lot of time and frustration and represents the final countdown prior to launch.

This 4 ebook bonus set is valued at £39.97 and is yours free when you order "*The entrepreneur's step by step business elevator system*".

But Wait, There's More!

Don't order just yet! I have something else for you...

If you place your order within the next 48 hours I will also include another bonus worth £37.99.

Joint Venture Success Strategy

T.J. Rohleder is a man from a tiny US town, who started out with just \$300 and now owns a company worth more than **\$20 million**. And all he sells is information products.

This is basically a brainstorming session in which T.J. and distinguished friends analyse a seminar speech given by Brad and Allen Anton, about the benefits of joint ventures.

Joint ventures are win-win situations for both parties. It's a very profitable way to do business with someone who has already amassed a list of customers.

And it's probably the fastest way to build a business online.

If you are new to Internet marketing then one problem you could face is the lack of credibility. People won't know you and therefore might not trust you. And if they don't trust you, they might not buy from you.

If you can get someone, who is already established as an Internet marketer, to sell your products to his customers for 50% of the profits, you have a better chance of making money fast... and building credibility.

So, instead of looking at your competitors as the 'enemy', think of them as potential joint venture partners.

T.J. and friends explore all the possibilities and throw up some very good advice in this quality audio recording.

It's yours free if you order ***"The entrepreneur's step by step business elevator system"*** within the next 48 hours only.

And there's another good reason for ordering early...

I only have 100 copies of ***"The entrepreneur's step by step business elevator system"***.

That's all my license will allow me to distribute in the UK, so it has to be first come first served I'm afraid. If you order today you will very likely secure your copy and get all the free bonuses.

Leave it till tomorrow and you might still be okay, but leave it any longer and I won't be able to guarantee anything. If you do order too late, don't worry. I'll return your payment right away.

When they are all gone that will be the end of this one-time opportunity forever. Can you really afford to miss out on this?

Place your order today completely risk free!

No Quibble and No Questions Asked, 100% Iron Clad, 30 Day Money Back Guarantee

Order today and examine "***The entrepreneur's step by step business elevator system***" in your own home for up to 30 days.

If for any reason whatsoever, you feel that this money-making Internet business is not for you, then simply return the whole package to me and I will issue you a full and complete refund.

Absolutely no questions asked... So what have you got to lose?

Order your copy of "***The entrepreneur's step by step business elevator system***" now and get...
